RECONSIDERATION OF DECISION ON PETITION

Assistant Commissioner for Patents
P.O. Box 1450

Alexandria, VA 22313-1450

ATTN: PCT Legal Office

Dear Sir:

In response to the Decision On Petition mailed on 11 June 2007, Applicants submit herewith a properly executed Petition For Revival that is needed to fulfill Requirement (3). Applicants hereby request Reconsideration of the Decision On Petition based on the accompanying executed Petition for Revival.

As set forth in the Decision on Petition, Applicants submitted a Petition For Revival on 26 September 2006, that satisfied Requirements (1), (2) and (4) of the Petition for Revival.

However, the Decision on Petition stated that Requirement (3) was not satisfied because the Petition For Revival did not identify the application (i.e., by the U.S. Serial Number) and it had not been signed by a licensed practitioner (i.e., the signature line was left blank). To remedy these deficiencies, Applicants submit a new Petition For Revival (Form PTO/SB/64/PCT) that includes the U.S. Serial Number for

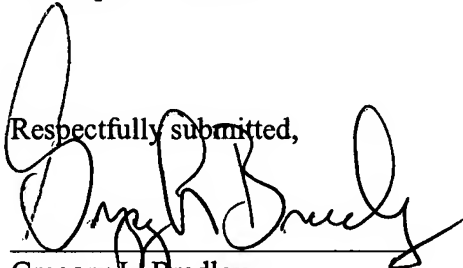

this U.S. national stage application and is executed by the below-named licensed practitioner.

Based on the accompanying properly executed Petition For Revival form, Applicants submit that all of the Requirements for the Petition For Revival have now been satisfied, and respectfully request that the Petition For Revival now be granted.

If additional fees are due for this reconsideration request, Applicants hereby authorize the Assistant Commissioner to charge them to Deposit Account # 13-2530.

Date: July 26, 2007

Respectfully submitted,

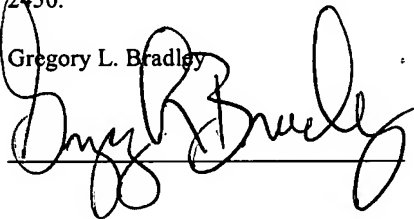

Gregory L. Bradley

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.
